Organic tin = migration of total organic tin is expressed as tributyl tin cation content in mg/kg

# = Verified results (see note)

Remark:

- Results of Cr III and Cr VI were reported as sum of soluble Chromium content unless specified.

- *Result(s) of organic tin was (were) calculated while assuming the tin content wholly contributed from tributyltin cation unless specified.*

Note:

If soluble chromium content or soluble tin content exceeded the screening limits of soluble chromium (VI) or organic tin content, the results were verified by below method

- Chromium VI: In house Ion-chromatography analysis.

- Organic tin: EN71 part 3:2019+ A2:2024, Annex G by Gas Chromatography – Mass Spectroscopy analysis.
